

# United Systems, Inc

## “RELATIONSHIPS THROUGH SERVICE”

“How important is your business?” With your customers and employees depending on your company have you thought through your Business Continuity plan?

You need to ask yourself:

1. How is our data backed up?
2. Do you have a disaster recovery plan?
3. How long would it take to get your business back on-line?
4. How much business would be lost for every day without your systems?

We have helped many customers navigate through these questions and designed solutions to help before the disaster strikes.
